Breach of the notification requirement is a punishable offence. The notification requirement is not satisfied until the appropriate notification has been delivered to Oslo Børs and made publicly available. If you fail to deliver a required notification within the stipulated timetable, you must nonetheless deliver the notification, even if it is received after the deadline, in order to avoid the matter becoming more serious. This is necessary to satisfy the market's need for information on transactions carried out by primary insiders. Any breach of the requirements in respect of the content of a notification is also a punishable offence. If Oslo Børs suspects any breach of the notification requirement, it will routinely notify Kredittilsynet of this together with details of the personal information mentioned above. Kredittilsynet will investigate such a referral and reach a decision on whether the matter shall be referred to the prosecuting authorities.
